Governor's Foreword

Fiscal Year 1990-91 saw New York State entering a period of painful retrenchment, a retrenchment that affected every aspect of state government.

The New York State Council on the Arts faced this situation boldly and, under the circumstances, tried to deal with the new fiscal restraints in as responsible and creative a way as possible.

In my opinion they succeeded admirably, conscientiously striving to meet their goal of access to the arts for everyone in our great state while always remembering their three constituencies -- artists, organizations and the public.

I applaud their efforts and particularly the extraordinary leadership of Kitty Carlisle Hart, the Council's indomitable Chairman. She, in combination with deeply committed Council members and staff, has demonstrated professional integrity at the highest level.

Mario M. Cuomo

Statement of the Executive Director and Chairman

For the Council and its applicants, fiscal year 1990-91 was particularly difficult due to the deterioration in the state's economy. First, in April, at the beginning of the fiscal year, funds were cut more than 7 percent from the previous year to \$50 million.

Then, shortly after the October 24th Council meeting, funding for all state agencies was suspended until the Legislature and Governor could agree on statewide cuts large enough to cover the state's deficit. This decision, made in December, set an additional cut for the Council at \$3.6 million. And because the unspent balance of the Council's appropriation after the June and August funding meetings was approximately \$18 million, it was from this balance that the cut was made. The result: Some art groups, because of this accident of timing, had to shoulder a disproportionate share of the burden.

In addition, such a large cut coming so late in the fiscal year required the Council to make some very difficult decisions as to how the cuts were to be accomplished. Broadly speaking, the Council instructed the staff that it should be sensitive to the entire spectrum of the arts throughout the state. The extremely painful reductions, ranging from straightforward percentage cuts to the suspension of entire categories, were approved by the Council at its December 17th meeting.

We also should tell you that the Council's administrative budget was slashed at that time to the point where all audits were suspended, all staff travel discontinued, and nine staff members were laid off. In addition, scheduled panel meetings for the December reviews were canceled. Even this Funding Report has been affected; in order to ensure that every possible dollar would go to serving our constituents, we restricted the report's contents to include only the minimal record of the Council's activities in FY 1990-91, and kept costs at the bare bones minimum.

Throughout this period, the staff, the panels and the Council members tried always to keep uppermost in their minds the basic mission of the Council to ensure "that artists have the freedom to create, that arts organizations have the means to serve and present, and that audiences across the state have the opportunity to experience, firsthand, the varied and rich cultures of our people." Given the extraordinary constraints placed upon them, we believe they all performed superbly in meeting these goals.

Electronic Media and Film Program

The Electronic Media and Film Program supports production, presentation, distribution, preservation and services necessary to allow its diverse constituencies to develop in directions appropriate to each medium, activity or community.

The program is dedicated to furthering the artistic, conceptual and administrative growth of the fields of audio, film, radio, television and video, and adequate promotion of all activities is a major concern, as the Council believes that development merits the same force of imagination applied to the programs themselves.

Museum Program

The Museum Program supports the improvement, programming and operations of art, history, science and children's museums and organizations providing services for museums. Museums are defined as institutions that own and/or utilize tangible objects of significance, care for them and interpret them to and for the public on a regular schedule.

The program seeks to ensure the care and interpretation of the State's cultural heritage. It is particularly concerned with the issues of responsible stewardship and public access. The Museum Program encourages responsible, informed collections management and is committed to supporting high quality exhibitions, educational programs and publications, especially those that interpret the art and history of traditionally underserved populations.

Presenting Organizations Program

The Presenting Organizations Program provides support to both established and developing organizations that present, pay and promote performing artists and ensembles in music, dance, theatre, mime and performance art for public appearances.

The program's main purpose is to help make possible culturally diverse performances of high professional standards and artistic excellence for the people of New York State. The Council, therefore, gives special consideration to organizations that have as their main purpose and function the development, promotion and dissemination of the arts, and those that are separate and distinct organizations and are not departments or subsidiaries of other organizations.

State and Local Partnership Programs: Decentralization Program

The Decentralization Program began in 1977. It was developed to make the arts more accessible to all residents of the State through a partnership with designated local decision-making agencies. Following standard guidelines developed by the Council, the designated local arts agencies throughout the State are authorized to regrant funds at a maximum level of \$5,000 to support exemplary professional and avocational arts activities in all artistic disciplines within their own communities. Like the Council, local regrant agencies may also support the work of individual artists applying through qualified conduit organizations. Funding provided through the Decentralization Program is based on the local eligibility and evaluative criteria determined by each site as appropriate for each community.

State and Local Partnership Programs:

Local Arts Organizations/ Service Organizations Program

The primary applicants to the Local Arts Organizations/Service Organizations Program are local arts councils, community based multi-arts centers and multi-arts service organizations. The program supports the artistic and administrative development of local arts agencies and service organizations in New York State. The traditional activities of this constituency include developmental assistance to other cultural organizations, services to individual artists, the expansion of audiences for the arts through public information and innovative and accessible cultural programming and community and regional cultural planning.

Visual Artists Program

The Visual Artists Program has a firm commitment to artists and arts organizations to ensure that their work reaches a broad audience. At the same time, applicants are strongly urged to seek out high quality contemporary work that expands traditional parameters, transcends disciplinary constraints and reflects the diverse ethno-cultural profile of the State of New York.

Hoping to promote all forms of creative activity among contemporary artists, and considering artists to be its primary and most important resource, the program supports organizations that aim to expand the range of contemporary art by assisting artists' efforts to create high quality new work, by producing and presenting this work to the public and by interpreting contemporary art for the public and the state's artistic community while helping to foster critical commentary.

Primary Organizations

In compliance with a legislative mandate that at least 50 percent of the Council's Local Assistance funds be directed to organizations designated as "primary", the Council filed the following list of 230 cultural organizations with the State Division of the Budget for 1990-91. A total of \$27,169,253 was awarded to these organizations in 1990-91. Primary institutions are defined as "eligible arts organizations which, by the quality of their arts services, their stature as arts institutions on a state or national level, or by the importance of their contributions to a significant population or the arts discipline in which they specialize, are particularly important to the cultural life of New York State, and the loss of which or the diminution of services would, in the opinion of the Council, constitute a serious artistic loss to the people in the State."

Funding by County 1990-91

The Council's appropriation act mandates that "the residents of each county receive arts services proportionate to at least 55 cents per capita of population in each county, except that Council grant standards of artistic quality and administrative competence must be met." In compliance with this mandate, in 1989-90 the Council awarded grants to organizations in each of the states 62 counties in the amounts shown below. The "required" amounts are based on the 1980 U.S. census figures. The Council's response to this mandate is made through grants to organizations which apply to any and all Council programs through the normal application process. In addition, grants are awarded to organizations which provide arts services on a statewide basis. Grants for these purposes are shown at the end of the list as "statewide."
